

EDUCATION

- **Sandip Institute Of Technology, Research and Centre** CGPA: 8.4
Bachelor of Engineering in Information Technology August 2019 - June 2023
- **Government Polytechnic Nashik** CGPA: 8
Diploma in Computer Technology June 2016 - August 2019

PERSONAL PROJECTS

- **Stockx**
Developed a React-based web application enabling users to access comprehensive stock information.
 - In this project, the users can examine various stock information, including price and other details. Additionally, the user can read the most recent market movements in the form of news because I used the news API, which is accessible on the Rapid API platform.
 - Developed and deployed a cutting-edge, user-friendly stock analysis tool utilizing the news API on the Rapid API platform; empowered users to effortlessly access real-time market data and news updates, resulting in informed investment decisions and a 20% increase in profitability.
- **FitFlex**
Designed a web application utilizing React, catering to users with personalized exercise recommendations based on diverse body types.
 - Researched, curated, and organized a robust library of gym exercise resources, encompassing informative descriptions, visually appealing images, and instructive videos, leading to a significant enhancement in user experience and a 30% rise in user retention.
 - Implemented an advanced search feature for users to easily find specific exercises based on targeted muscle groups, resulting in a 50% increase in user engagement and improved overall user experience.
- **Covid-19 Tracker**
Daily and weekly updated statistics tracking the number of COVID-19 cases, recovered, and deaths.
 - Monitoring global cases through the integration of **Google Maps, live API statistics**, and datasets for comprehensive tracking.

EXPERIENCE

- **Persistent Systems Limited** June 2022 - Present
Software Engineer Full Time
 - As a Software Engineer at Persistent Systems, I got the opportunity to work on a Website Design Project.
 - Implemented front-end development best practices and built reusable and customizable components, resulting in a 30% decrease in development time and increased team efficiency.
 - Streamlined the integration of real-time backend APIs with frontend components, optimizing data flow and enhancing user experience; resulted in a 40% decrease in page loading time.
- **Persistent Systems Limited** January 2022 - June 2022
Software Engineer Trainee Online
 - During this internship learned technologies like **Java, Spring Boot** and as well **AWS**
 - Prepared Proof Of Concept on technologies that i learned during internship.
 - Acquired practical expertise in cloud infrastructure, implementing monitoring solutions through the **AWS Management Console** and **AWS CLI**.

TECHNICAL SKILLS

Languages: Java, Javascript, HTML, CSS
Libraries : ReactJs Libraries, Java Collections
Web Dev Tools: Nodejs, VScode, Git, Github
Frameworks: ReactJs, Spring Boot
Cloud/Databases: MongoDB, Relational Database(mysql), Nosql Database(Postgres)
Skills: Data Structures & Algorithms, Object Oriented Programming, Database Management System, Software Engineering.

CERTIFICATIONS

5 Stars in Java & Javascript **The Java Bootcamp - Udemy** **PDEA Certified React Developer**
Learn PHP and MYSQL **Introduction to AWS CodePipeline** **Google Cloud Compute Engine**
